A detailed map of North America, including the United States, Canada, and Mexico. The map shows state and provincial boundaries, major cities, and geographical features like the Great Lakes and the Gulf of Mexico. A red dot is placed in the Pacific Northwest region of the United States, near the border of Washington and Oregon.

2024 Inventory of the Living Collection

These data represent all active accession-items (n=3625) at Polly Hill Arboretum, current as of January 30, 2025.

How to read this table:

Taxon: Botanical name

Item No.: Complete “accession-item number,” an individual identifier,
formatted as [accession year]-[accession number]*[item identifier]

Location: Physical plant or seed location. See: Map of Garden Location & Table

Source: Original source of accessioned plant material

Material: Material type on arrival

P(provenance):

G – Garden (cultivated origin)

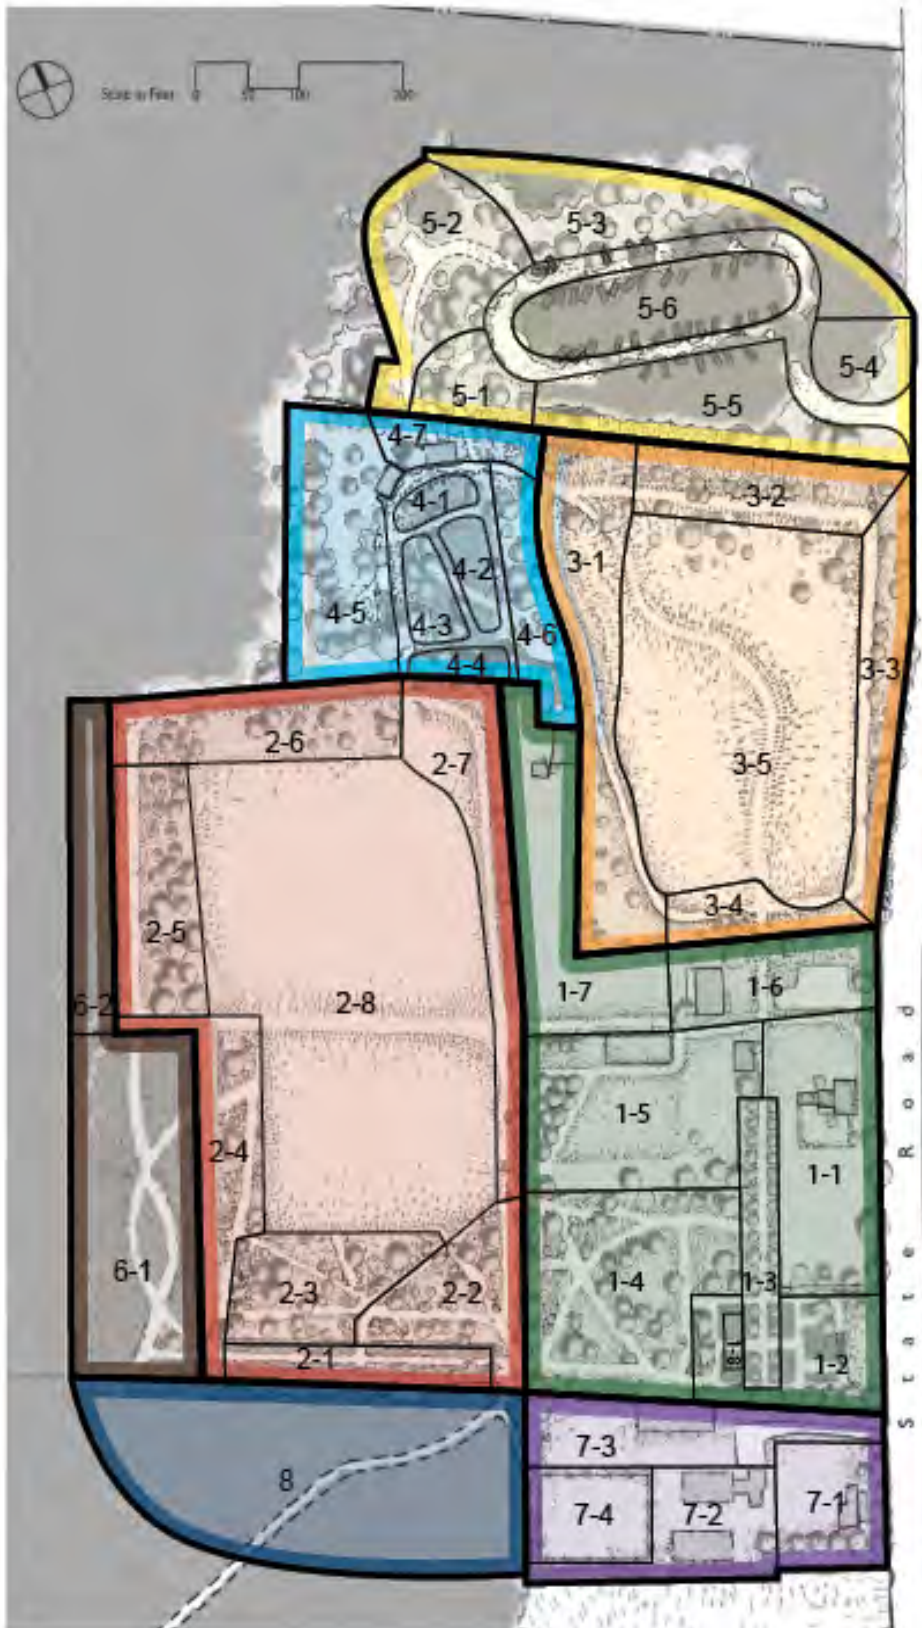

W – Direct wild origin

Z – Indirect wild origin

U – Unknown origin
